

Standard Features

- » Capable of calibrating several hand-held force gauges from different manufacturers
- » Kit includes several back plates and base plates which can be combined to calibrate various instruments
- » Can be used with Morehouse Portable Calibrating Machine or Universal Calibrating Machines
- » Precision machining of mounting hole patterns and loading offsets ensure accurate calibration
- » Versatile kit is expandable and reduces calibration lead time
- » Significant savings on long-term cost of calibration adapters for hand-held force gauges
- » Rust-resistant black oxide coating on all part

Manufacturer	Model	L-Bracket Back-Plate	L-Bracket Base Plate Part No.	Threaded Adapter
MOREHOUSE	DFGPP	A	CL-1B-0.5433	M6
AMETEK	D	D	CL-1B-1.1875	#10-32 OR 5/16-18
AMETEK	DFX SERIES	C	CL-1B-0.6850	#10-32 OR 5/16-18
AMETEK	AMETEK III (< 100 LBF)	A	CL-1B-0.7500	#10-32
AMETEK	AMETEK III (> 100 LBF)	D	CL-1B-1.1875	5/16-18
